Claudia - I provided comment on the response to the interagency review. I reckon having been out of the loop for the past couple months, I'm not sure I could add much value reviewing the entire RIA.

Thanks,

**Subject:** U&O FIP: Final Review of Responses to Latest Round of OMB Interagency Review Comments

All,

We would like to send responses to OMB's latest round of interagency comments by COB Monday, December 5<sup>th</sup>. Most of you have already reviewed the majority of the responses. We have only made some minor adjustments and added language on our intent to develop a streamlined permitting solution in the future for new and modified sources in the event the Basin is designated nonattainment. If you have the opportunity, please do a quick review of the tracked changes and other responses in the documents at the following locations by noon MT Monday, December 5<sup>th</sup>, so that we can clean up all internal comments before sending it to OMB. If an internal comment of yours has been resolved to your satisfaction, please indicate so in the comments.

RIA and responses to Summary of OMB interagency comments at:

(sort newer to older and they should be the top two).

Notice of proposed rulemaking at:
